Notes:

- Faculty assignments are tentative. Access to course material will be granted on the class start date. Grades are due in the Registrar's Office one week after the last class.
- Early registration takes place in the preceding semester, but no students will be entered into the e-College system (enrolled) earlier than four weeks preceding the start of classes.
- Registration ends on the day courses begin.
- Summer classes are scheduled to be offered as per 12-week Summer Schedule.
- Last day to drop or add class is approximately one week after class start date. [Students may change their schedule without financial penalty, or effect on GPA.]
- *The **census** (the 'head count' and basis for e-College charges) should be performed at least two days after the "Last Day to Add/Drop" to allow for all the registration changes to be properly recorded.*
- Last day to withdraw is approximately eight weeks after add/drop date (except in summer, when it's approximately four weeks). [Withdrawal includes implicit financial penalty since there is no refund or exchange allowance, but there is no effect on GPA, as long as student is passing at the time the course is dropped.]
