Occupational Therapy Assistant Studies Program  
Occupational Therapy Site Visit

As part of the application and admission process for the A.S. in Occupational Therapy program, you must complete two site visits to OT practitioners. You must select two sites with different consumer populations and settings. For instance, visiting OT clinics in two long term care facilities would not meet the requirement. If in doubt about your choices for visits, please call the PhilaU A.S. in Occupational Therapy program for clarification.

You must complete one form for each visit. Please submit these completed forms prior to scheduling your admission interview.
