

## ADRIENNE-DOMINIQUE LIVIOCO

I am a textile design major. I grew up in I am a Digital Animation Major from Frederick, MD. My freshman year was a year where I got to really develop my stepping-stones into who I am as an individual. It was really different being on my own, but it was really easy to adjust to the college life. With my leadership skills, newly built friendships and involvement with the college community, I was able to overcome the rollercoaster of exhilarating challenges of a first year student.
