Honors Course Upgrade Application

Since it is impossible to offer Honors sections for every course at the College, all students are encouraged to consider the option of upgrading to the Honors level their individual participation in an existing course in their major. Students who plan to upgrade a course should be enrolled as regularly graded students, not as Credit/No Credit students.

Honors courses in College Studies are offered on a regular basis. In order to maintain a sufficient number of students in College Studies Honors sections upgrades in the College Studies program will only be allowed if the student is unable to schedule the regular "HNR" Honors section.

An Honors section of Contemporary Perspectives (COLLST 499) is offered once every semester. Because all Honors students must take COLLST 499 at the Honors level, all Honors students should accommodate the Honors section into their senior year schedules. Permission for an upgrade will only be given if there are substantial schedule conflicts, if your major requires COLLST 499 to be taken in the summer, or other hardships. Honors students who need to upgrade COLLST 499 must receive permission from the Honors Program Director before submitting an application.

The upgrade can be initiated at any time during the first two weeks of the term by submitting to the Director of the Honors Program the Course Upgrade Intent form. (Upgrade Intent forms for six-week summer sessions must be signed and submitted prior to the start of the session.) Details of the proposal must be completed and submitted to the Director of the Honors Program by the end of the fourth week of classes. (First week for six week summer sessions.) Both of these forms require the signature of the teacher of the course involved.

It is the responsibility of the student to secure the signature(s) needed and to return the form(s) to the Honors office.

What Makes It Honors?
Since every upgrade is tailored to every student's individual interest, it is difficult to define what activities/studies might be approved for Honors credit. It is, perhaps, easier to give some examples. A set of brief descriptions of Upgrade projects is available from the Director of Honors.

It should be kept in mind that this work is done within the context of the course in which the student is enrolled. If the scope of the intended work does not fall within the context of any existing course, the student should consider enrolling in an Honors Independent Study (HONOR 381/HONOR 382).

Ideal Honors upgrade projects will take something the regular students are already doing and extend it in depth, breath, or complexity to suit Honors work. If more quantity of work is done such as an extra paper it should not exceed one to two hours per week total. (i.e., 15-30 hours total.)
No special grading options are available for students undertaking Honors work, and no special compensation is available for faculty supervising such work. Upon its successful completion, and receipt of the Completion Form, Honors work will be noted on a student's transcript. Further questions concerning this option should be addressed to the Director of the Honors Program, the student's academic advisor or the instructor of the course.

Preparing a Proposal
After obtaining the consent of the faculty member teaching the course who has agreed to supervise the intended study / project, the student should prepare a proposal using the format described below. Forms are available on the Honors Program website under “Downloadable Forms”: www.PhilaU.edu/honors.

The INTENT FORM signifies that the student and teacher have agreed that an upgrade will be done. The details are not needed on this form. This form should be signed and returned to the Honors Director by the end of the second week of classes. (Prior to the start of a six-week summer session.)

The PROPOSAL PAGE should be signed and turned in within the first three weeks of the term in which the student is enrolled in the course. (During first week for six week summer session.) No retroactive upgrades will be allowed.

Signatures:
(1) The student submitting the proposal; signifying agreement to meet all proposed work.
(2) The supervising faculty member; signifying agreement to supervise the proposed work and to assess this work in the manner stated in the proposal. Dean of School of Liberal Arts if upgrading COLLST499 or any other Liberal Arts course when a regular HNR section is available.
(3) The Honors Director; representing the Honors Program's approval that the proposal is complete and the intended work meets "Honors" expectations.

A copy of the PROPOSAL PAGE will be returned to the student and the supervising faculty member. The original will be kept by the Honors Director.
