

# Sponsored Research Policies

## Update

## 9-month Faculty: Summer Effort

- With the permission of the Dean, 9-month faculty may teach a full load in summer for additional compensation.
  - Expectations for and progress with research/practice and scholarship should be demonstrated and discussed during annual reviews.
- Faculty who wish to pursue sponsored research (int./ext.) or industry-sponsored projects in summer may not have a full teaching load.
  - To assume sponsored work, faculty must reduce their summer teaching load, per effort calculations for the scope of work.
- Effort associated with program administration must be factored into effort available for summer teaching and sponsored projects.
  - Program Directors must discuss duties and responsibilities with their Dean.
