

Course Load Policy in Summer for Program Directors in DEC

Program Directors in DEC who receive stipend to perform administrative tasks in summer can teach up to eight (8) WLUs of lecture, lab, or studio course sections in May-August.

On-campus and online courses, as well as those within and outside of DEC are covered by this course load policy for program directors who receive stipends for administrative tasks in summer.

Exceptions to this policy must be approved by the Dean of the program directors. Exception requests should be submitted to the Dean prior to the start of the summer term and with as much notice as possible. The Dean will notify the College's Manager of Academic operations of the approved exception.
