SLOW, FURRY, AND FUN

Environmental Issue: The raising of domesticated animals has a long and varied history in this country. Animals have had important functions in our society and bio-ethicists have questioned the treatment of other species by human. Students will have an opportunity to learn about and instruct children in the care and raising of rabbits. They will be involved in the cleaning, feeding, and exercising of these species.

Chapters in Textbook: Cunningham, 5/e
Chapter 4, Biological Communities and Species Interaction
Chapter 6, Population Dynamics
