The Delaware Valley Green Building Council & Philadelphia University Continuing & Professional Studies invite you to participate in

GREEN HOME BASICS
Four Sessions
Tuesday and Thursday evenings
July 15, 17, 22 & 24, 2008; 6:00 - 9:00 pm

Want to ‘green’ your home? Learn about green design and how to identify green-washing. Have fun with a hands-on analysis of your home or project. Discover how to lower your utility bills and live more comfortably in a healthier home!

If you are looking to buy, build or renovate your home using sustainable design principles, join us for a basic, non-technical course in high-performance design, materials and systems, personalized for your project.

The course will include lectures, case studies, and hands-on work sessions. You will learn how to find resources to assist you in developing green strategies tailored to your personal project and tools to track your progress and meet your goals.

Instructors:
Laura A. Blau, AIA and Paul A. Thompson, AIA, are LEED Accredited Professionals. They are principals of BluPath Design Inc, an architecture firm focusing on sustainable design practices for residential, cultural and non-profit clients. Blau and Thompson have taught design courses in the architecture departments of Philadelphia University and Temple University. Their own home in South Philadelphia was awarded the 2006 Commonwealth Design Award for Sustainable Design and the 2007 IIDA Honorable Mention for Sustainability and Energy Efficiency.

Location: Engineering and Design Institute @ Philadelphia University
4145 Station Street in Manayunk, PA, just off Main Street.
(www.philau.edu/edi for directions).

Cost: $200 for (4) 3 hour sessions. Dinner is provided at the first session.

Registration: To register call Philadelphia University at 215 951 2900 ph, 215 951 5300 fx (Visa and MasterCard accepted. To pay by check, contact Philadelphia University. www.philau.edu/continuinged)

You are required to pre-register for this event. Once you register, you’ll receive instructions to gather information about your home or project for the course.

Continuing Ed. Credits: self reporting only.
