-

Shirley Landis and Peter Salce

# Background

- Growing needs for course supplies of electronics and robotics purchases across programs
- Advantages for bulk-purchasing through University Bookstore
- Identifying programs with similar needs
- Need for extended bookstore hours for graduate and evening courses in particular

# Kits and individual items

# E-Maker Kits: Next steps

- Determine the items for the basic kits and the courses that would require the kits
- Determine the items that would be in stock.
- Determine process for ordering of out-of-stock items for projects.
