

Greater Opportunity for Academic Learning and Living Successes (GOALS²) provides services to students who self-identify as needing of support to achieve their desired learning outcomes and enhance their overall educational experience at the university. GOALS² is free occupational therapy faculty and student led program that augments the supports offered through the Office of Student Accessibility Services.

GOALS² services are individualized to each student's needs and preferences. The services may include:

- Identification of student-driven academic goals
- One-on-One & Group:
 - Problem solving
 - Trialing
 - Training
- Classroom observation
- Consultation with faculty and staff members

GOALS² services address topics such as:

- Assistive and educational technology
- Study strategies specific to the student's needs
- Strategies to improve readiness to learn
- Interactions with peers in the classroom, group projects and academic life
- Adaptation of the learning and living environment
- Coaching around academic life and beyond

Tech Hour

All about using technology to make learning easier! Drop-in group sessions with tech demo, trial, practice, and problem solving.

Study Smarts

Drop-in group sessions to tackle your next assignment, practice study skills, and to organize your academic life.

GOALS² services are provided by appointment except for drop-in sessions. Third year occupational therapy graduate students provide the GOALS² services under the direct supervision of registered and licensed occupational therapists and the director of Accessibility Services.

Students can obtain additional information about GOALS² by contacting Accessibility Services at accessibilityservices@philau.edu or Monique Chabot, OTD, OTR/L at ChabotM@philau.edu.
